# TRACKING FUKUSHIMA'S NUCLEAR WEAPONS SITES

*Investigating the Suppressed Atomic Secrets of Northern Japan*

SOURCE MATERIAL: INVESTIGATIONS OF YOICHI SHIMATSU

DATE OF DOSSIER: 2024

3/11 was not just a natural disaster. It was the beginning of an unacknowledged event.

# THE HIDDEN REALITY OF 3/11

## OFFICIAL NARRATIVE

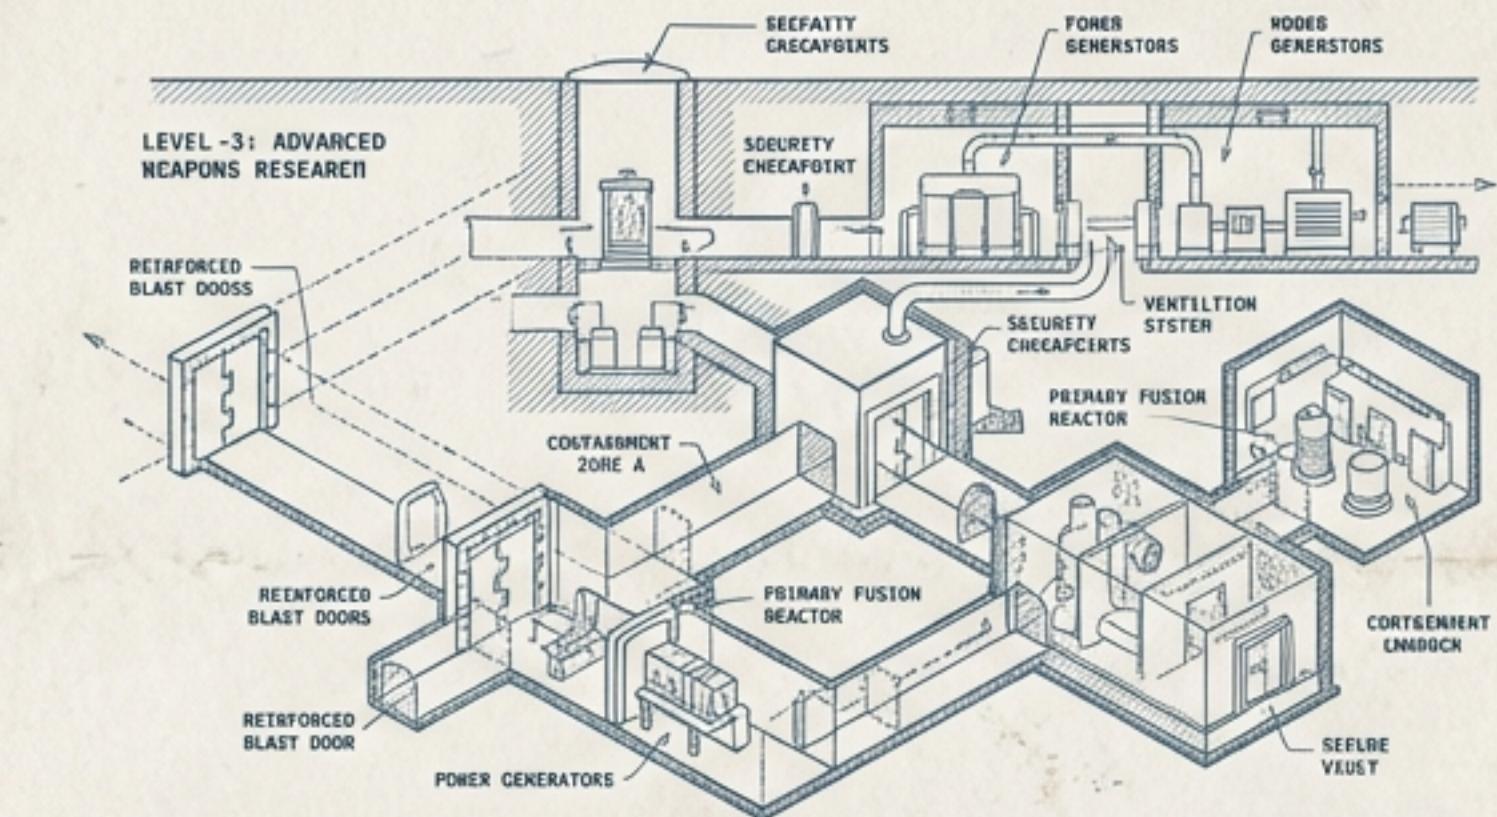

Environmental catastrophe following an earthquake and tsunami. A failure of civilian power infrastructure.

# EXTINCTION LEVEL EVENT

"Not mere nuclear waste sites, rather, 'wasted' nuclear sites...." – Yoichi Shimatsu

## INVESTIGATIVE REALITY

The deliberate destruction of secret underground nuclear weapons laboratories.

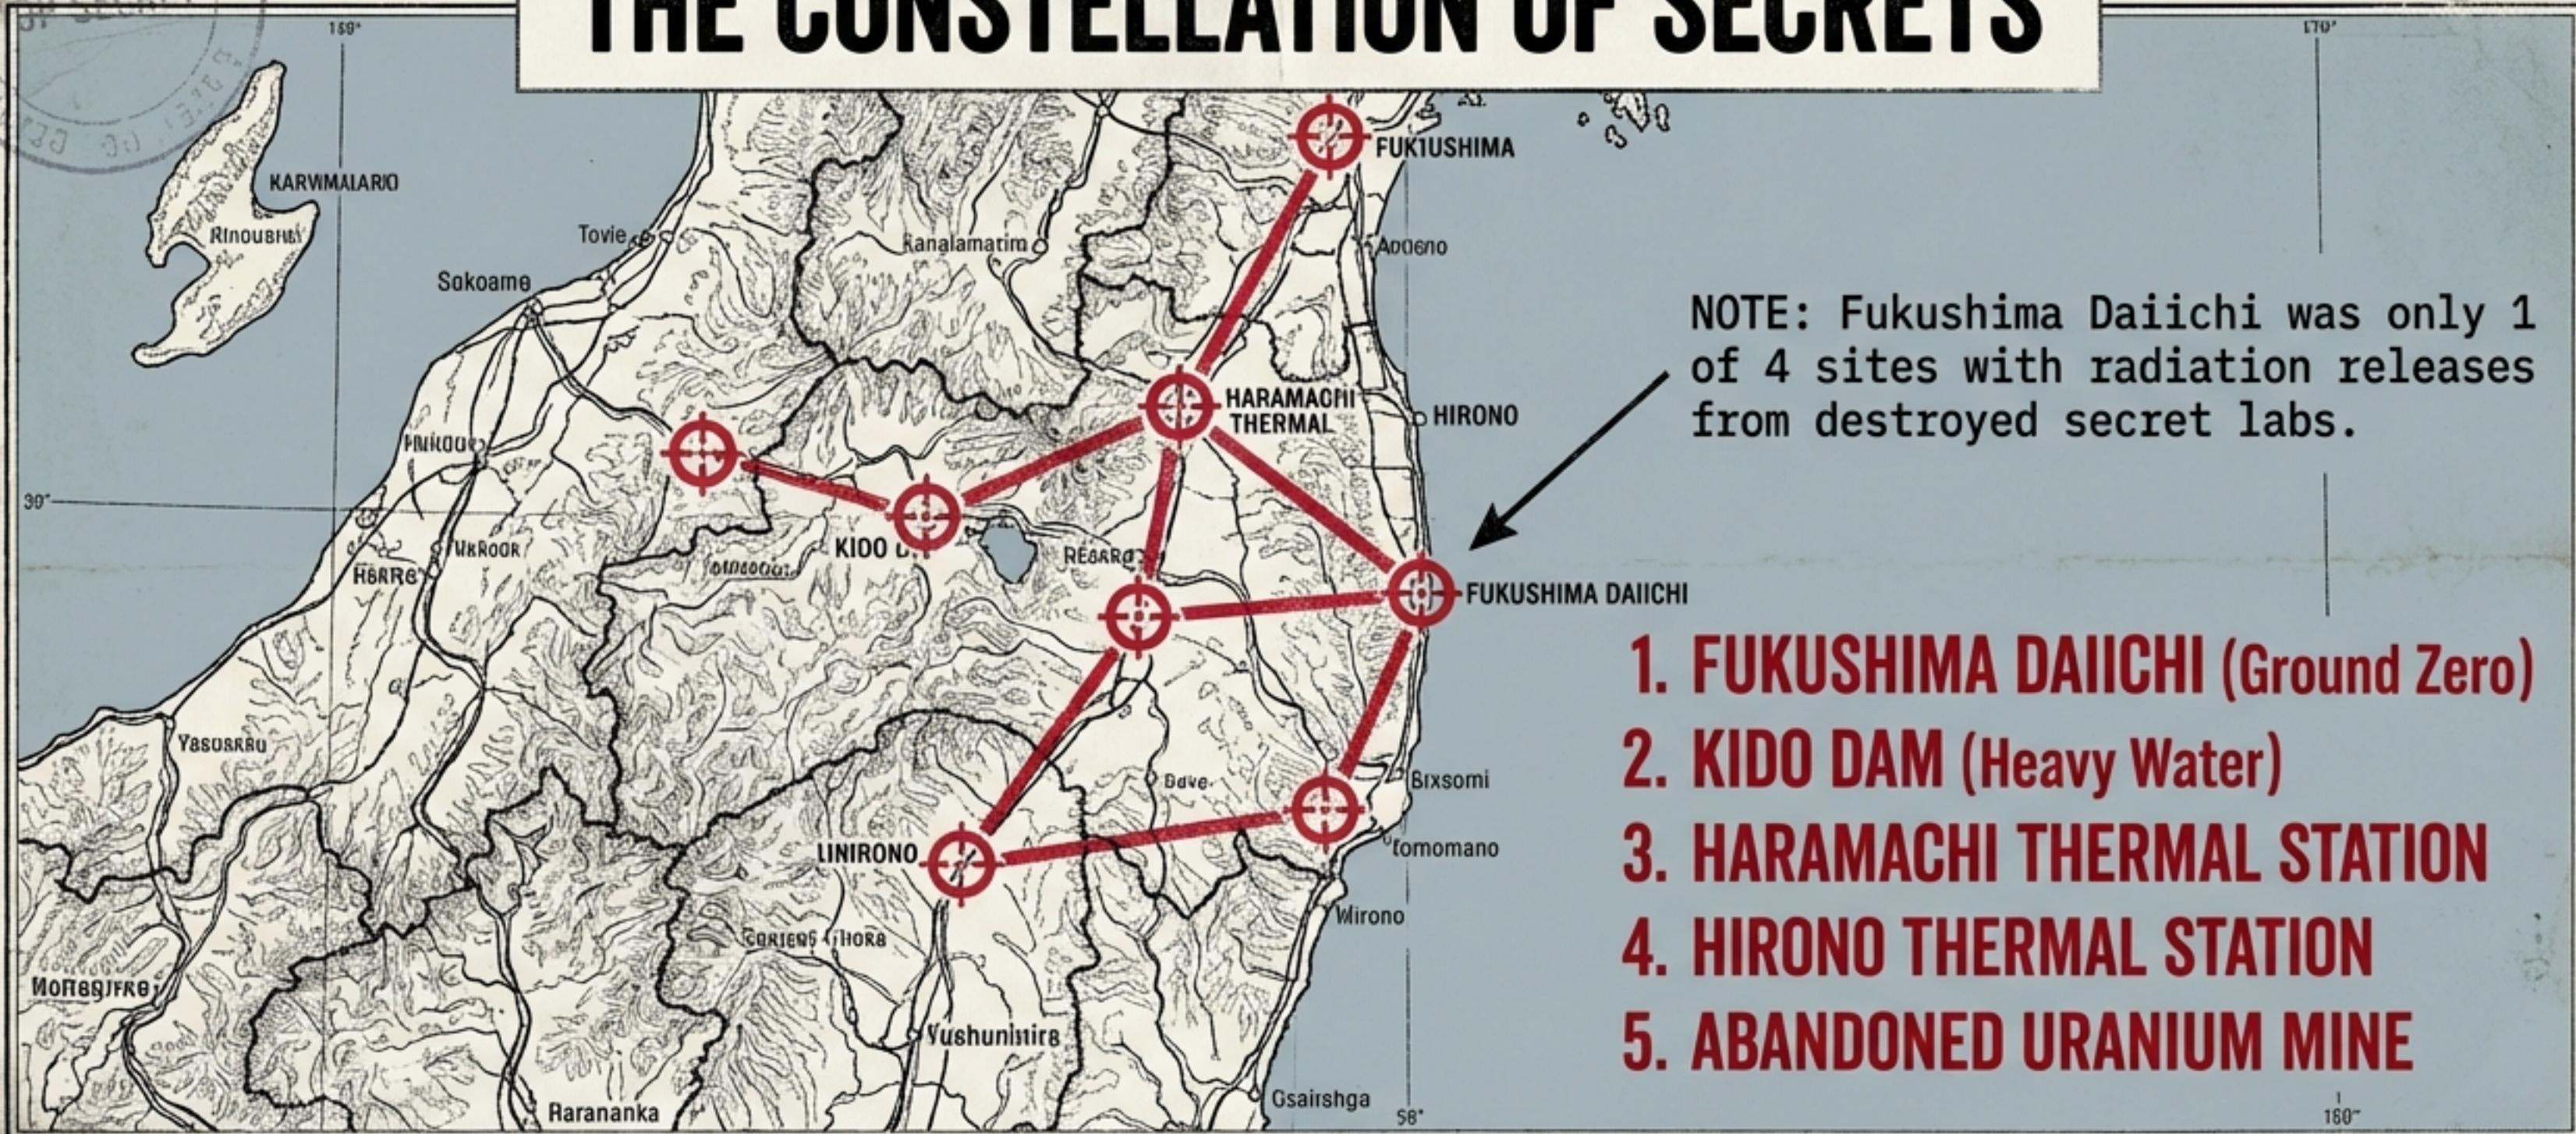

# THE INVESTIGATOR: YOICHI SHIMATSU

- **BACKGROUND:** Japanese-American science writer living in Japan during the 2011 disaster.
- **IMPACT:** Forced to flee his mountainside 'dream home' due to intense local radiation.
- **ACTION:** Became the first journalist to enter the government-mandated 'exclusion zone' with a video camera.
- **SOURCES:** Informants within the Japanese government, scientific, medical, and military establishments.

# THE CONSTELLATION OF SECRETS

NOTE: Fukushima Daiichi was only 1 of 4 sites with radiation releases from destroyed secret labs.

1. FUKUSHIMA DAIICHI (Ground Zero)
2. KIDO DAM (Heavy Water)
3. HARAMACHI THERMAL STATION
4. HIRONO THERMAL STATION
5. ABANDONED URANIUM MINE

A NETWORK OF SUBTERRANEAN FACILITIES HOUSING NUCLEAR WEAPONS LABORATORIES.

# EVIDENCE POINT 1: FUKUSHIMA DAIICHI

**THE CLAIM:** Site of a highly illegal subterranean laboratory.

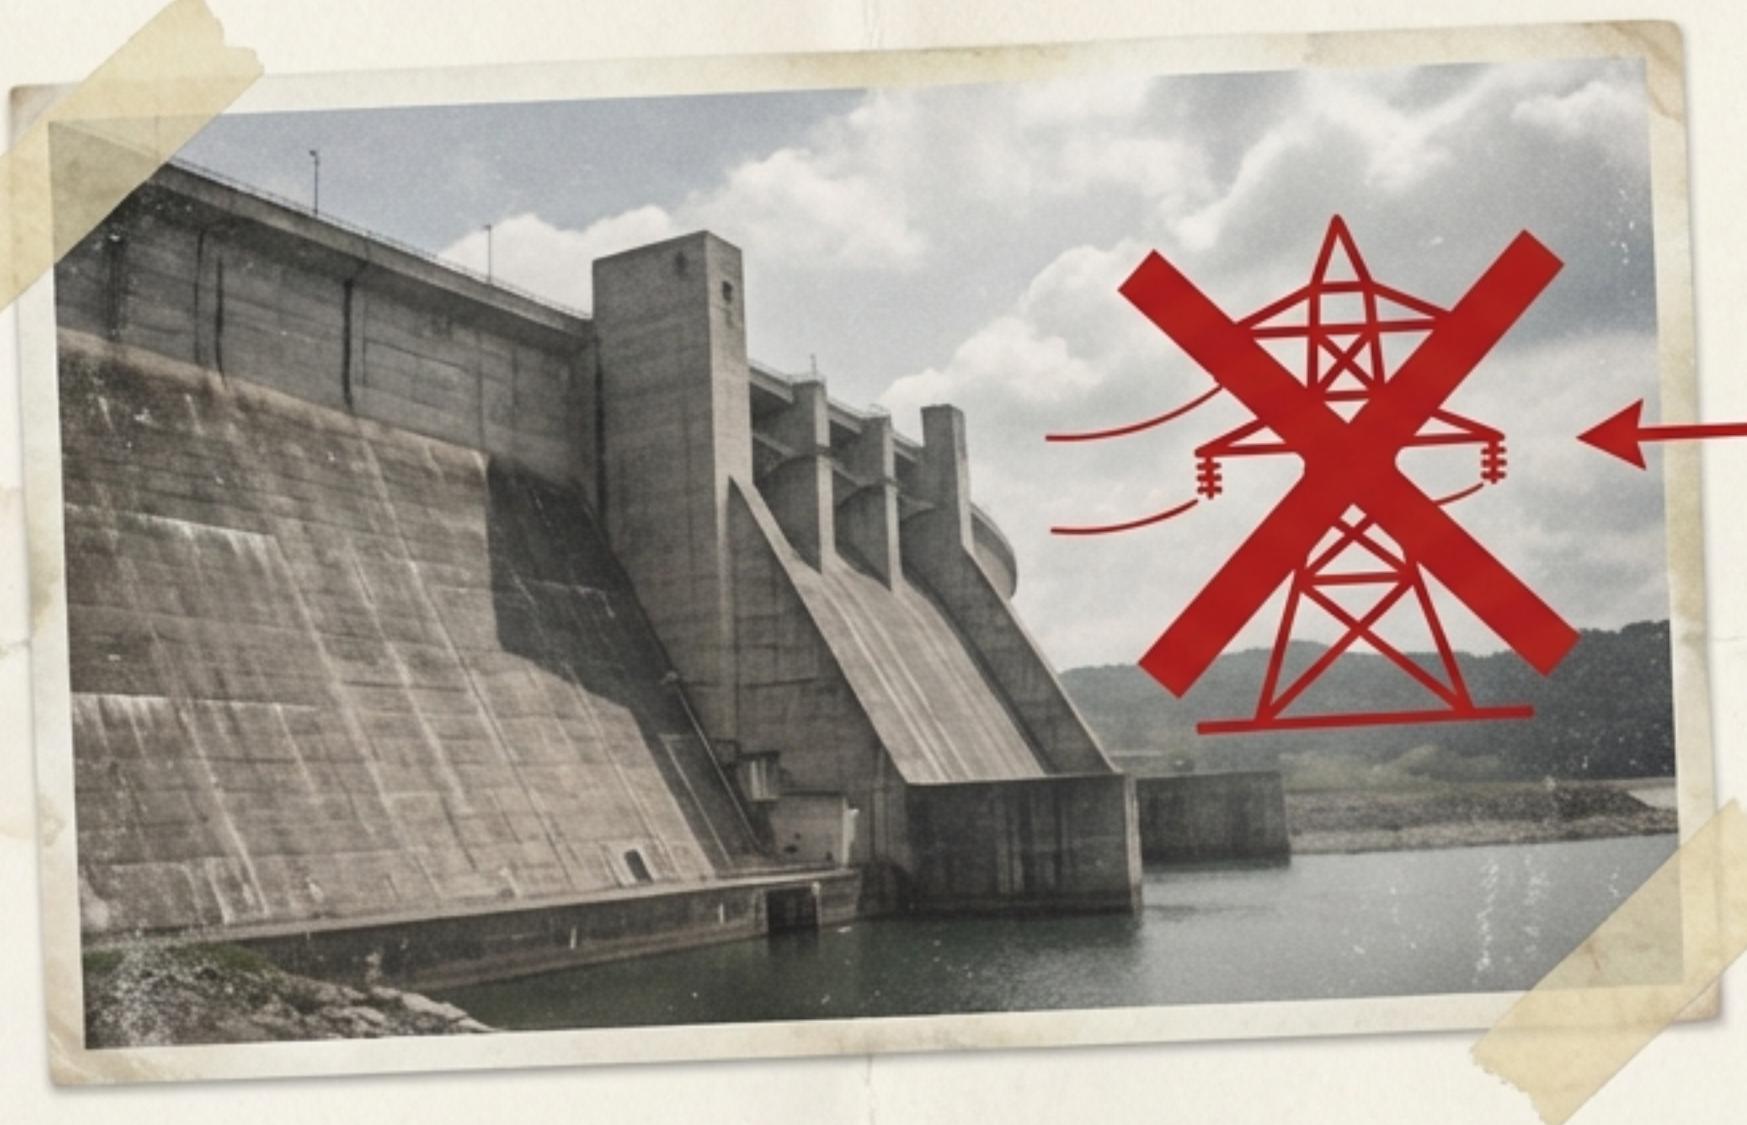

**FUNCTION:** Converting spent fuel rods from nuclear power stations into weapons-grade plutonium warheads.

**STATUS AT DISASTER:**  
**MACHINING WARHEADS**

**SUBJECT: COURIER PRIME**

TOP SECRET

# EVIDENCE POINT 2: THE KIDO DAM ANOMALY

NO POWER  
GRID LINK

**OBSERVATION:** A massive dam structure strangely unconnected to the Power Grid.

**THE THEORY:** Suspected **Heavy Water** (deuterium oxide) production facility **concealed inside** the hollow structure.

**IMPLICATION:** Heavy water is critical for specific **nuclear weapons development**, unrelated to civilian power generation.

# EVIDENCE POINT 3: HIDDEN IN PLAIN SIGHT

LOCATIONS: HARAMACHI & HIRONO THERMAL STATIONS

**THE ANOMALY:** Conventional coal-fired plants supplying power TO a Nuclear Power Plant.

**THE CLAIM:** These facilities house secret underground weapons laboratories beneath their conventional exteriors.

**LOGISTICAL INCONSISTENCY**

# HISTORICAL ROOTS: THE ABANDONED URANIUM MINE

[PRE-WWII]

Extraction of  
Uranium

[WWII ERA]

Partnership with  
Nazi Germany

[2011]

Disaster reveals  
lineage

The 2011 **disaster** creates a **direct lineage** to  
Japan's wartime **atomic ambitions**.

# THE COVER-UP LOGISTICS: CAMOUFLAGED RESERVOIR

- **FUNCTION:** A covert, desperation-measure emergency repository.
- **CONTENT:** Intensely radioactive nuclear debris originating from the 2011 debacle.
- **CONTEXT:** The ongoing environmental threat and 'waste crisis' resulting from destroyed secret sites.

# THE SPECIFIC LETHALITY

## STANDARD ACCIDENT

Releases fissionable material typical of power plants.

## INVESTIGATION FINDING

Releases of **WEAPONS-GRADE PLUTONIUM.**

**The Threat:** Hundreds of plutonium warheads may still be belching radiation into the Earth's ocean and atmosphere.

# GLOBAL PRECEDENTS

Validating the theory through historical pattern recognition.

## CASE STUDY A: DIMONA (ISRAEL)

Since 1978. A covert subterranean nuclear weapons laboratory hidden under an electric power plant.

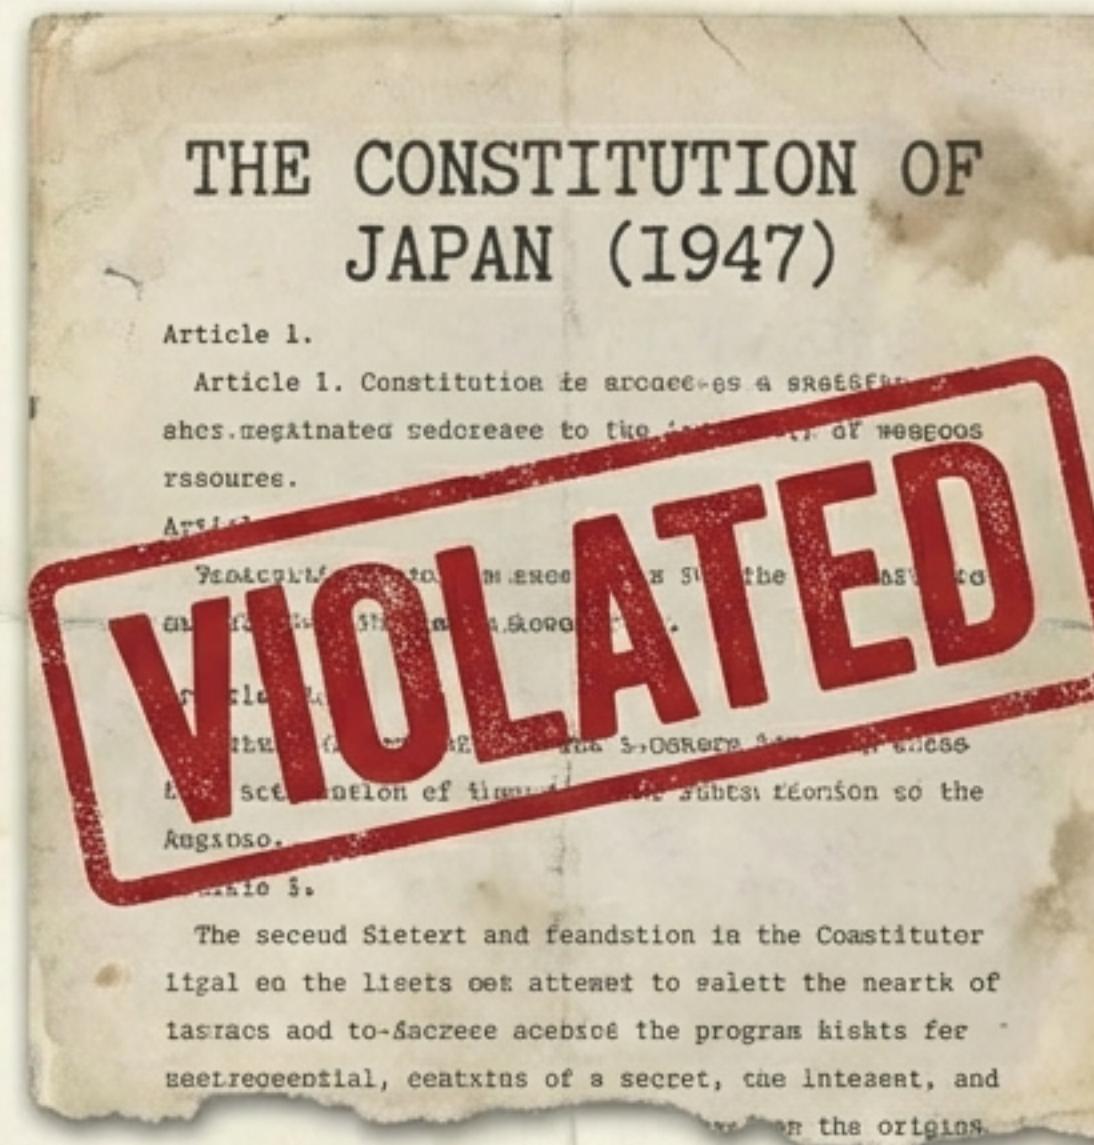

## CASE STUDY B: VEMORK (NORWAY)

Until 1944. A hydroelectric dam used as a Heavy Water production plant for Nazi weapons development.

**CONCLUSION: JAPAN'S INFRASTRUCTURE FOLLOWS AN ESTABLISHED PATTERN OF DUAL-USE CAMOUFLAGE.**

# THE CONSTITUTIONAL VIOLATION

**THE LAW:** The Constitution, imposed by the US, strictly forbids a Japanese nuclear weapons program.

**THE BREACH:** The existence of this program proves a violation of post-WWII international agreements.

“The most pervasive cover-up in scientific history.” – Yoichi Shimatsu

# THE DIGITAL DIVIDE

Tracking Fukushima  
Video (YouTube)

warheads.html  
(Rense.com)

**THE PROBLEM:** The evidence is disjointed. Residing on different domains with no cross-linking.

**CONSEQUENCE:** The “totality of this magisterial work” is unseen by the public.

# THE PROPOSAL

## MERGE EVIDENCE

Create a holistic, standalone presentation merging the video and text.

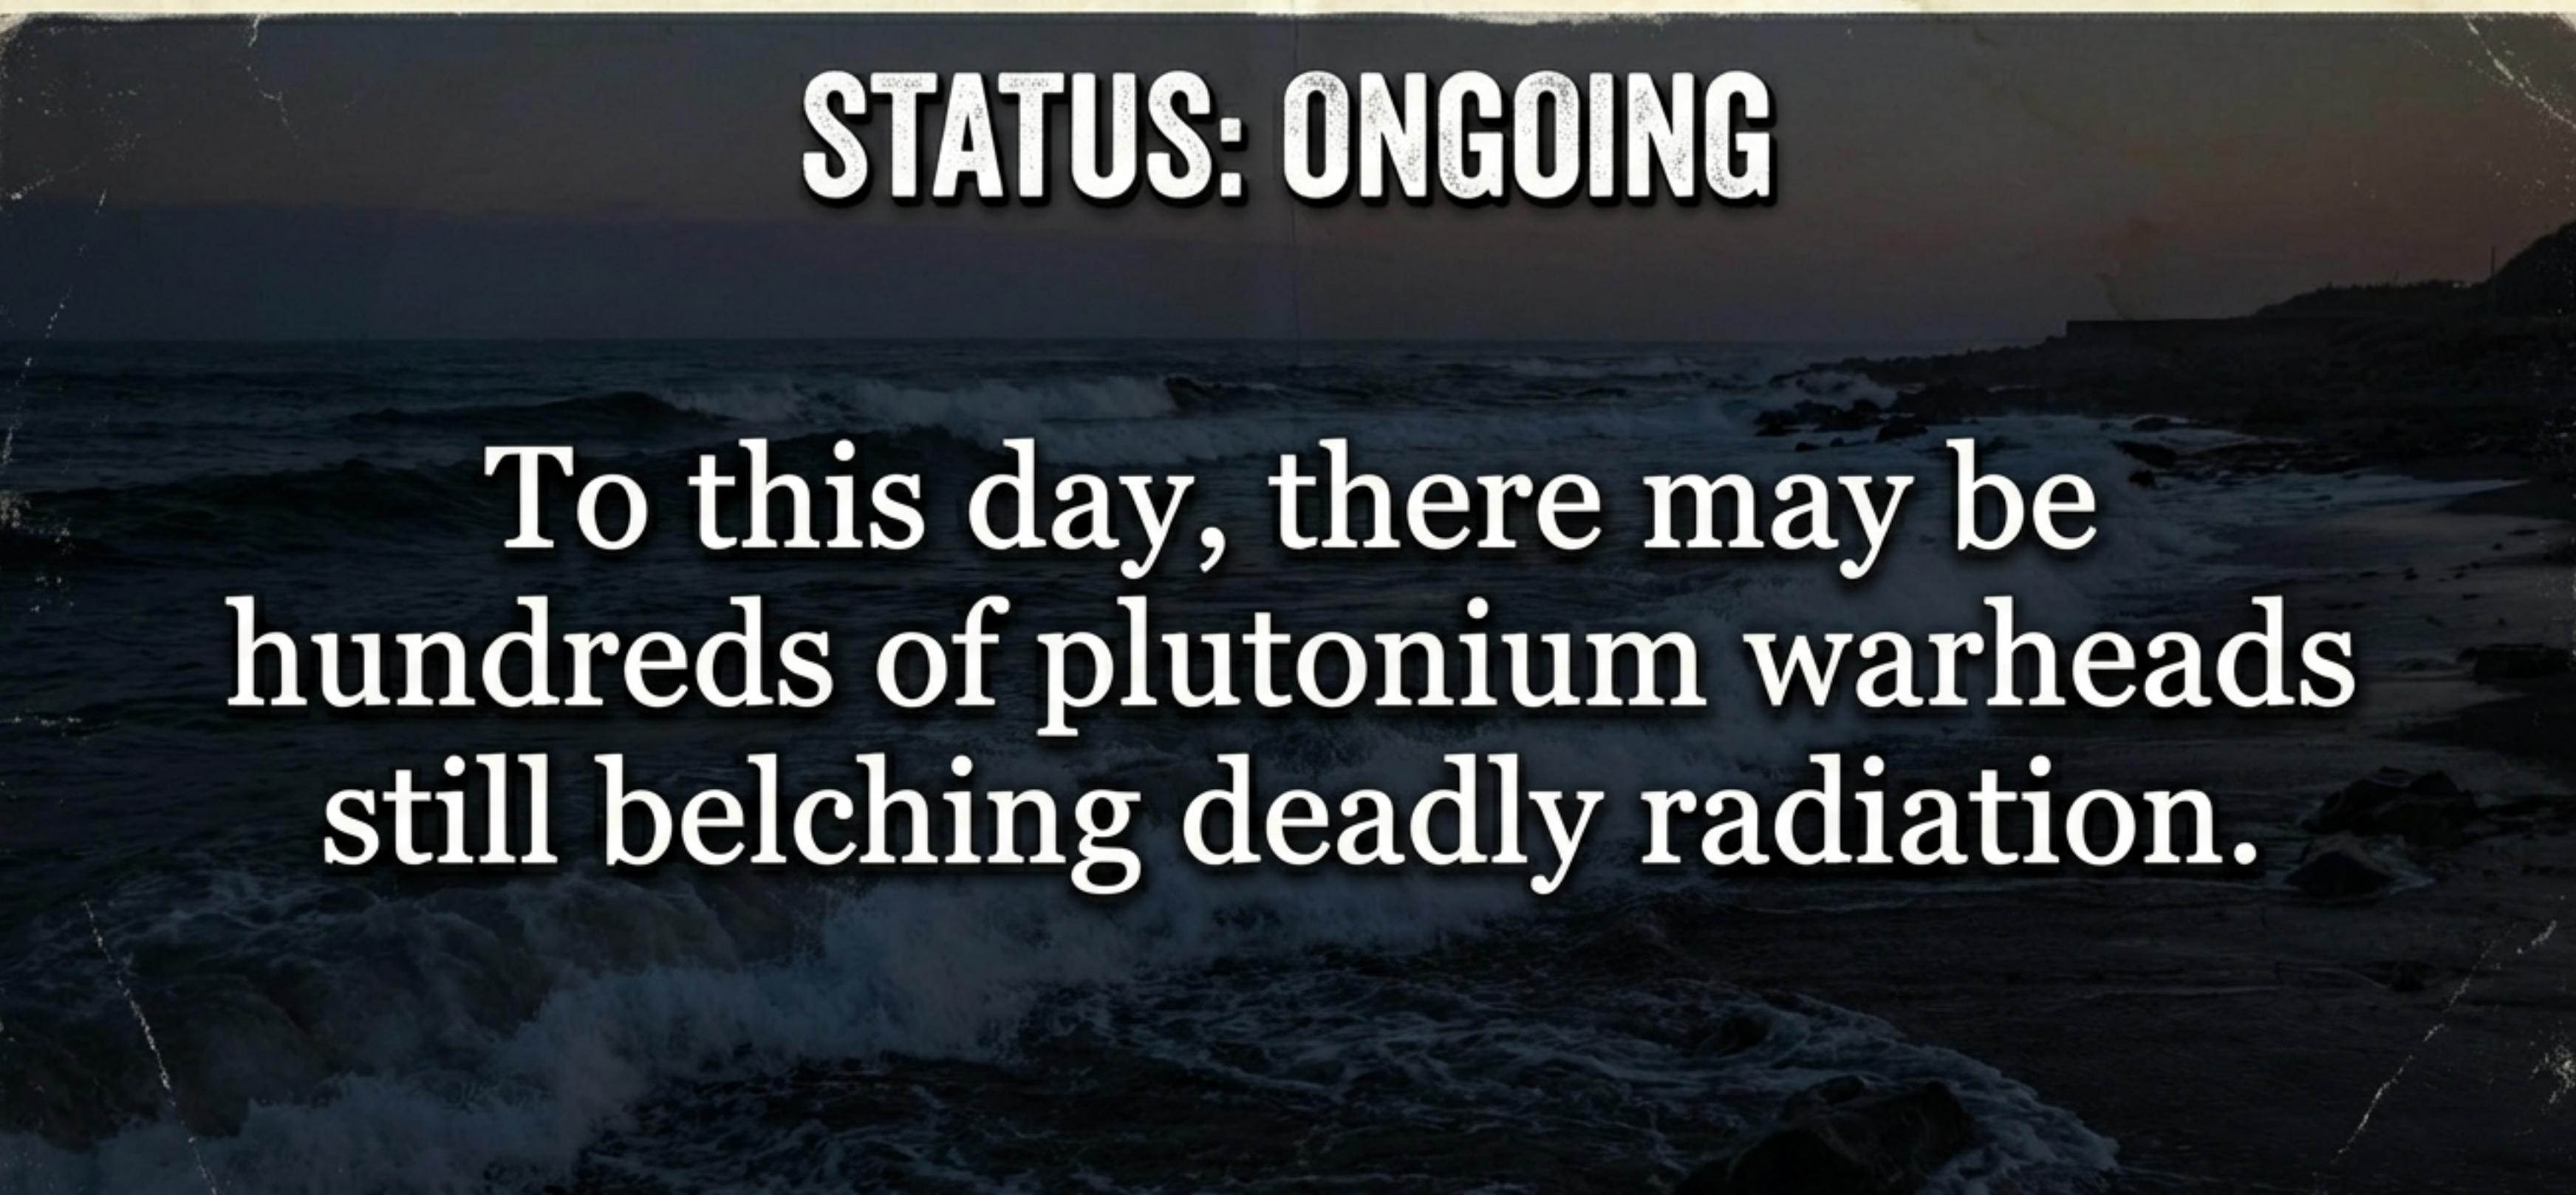

## UPDATE INTELLIGENCE

Reflect the seven years passed since the initial investigation.

## TRANSLATE

Produce a Japanese-language version to alert the local populace.

# STATUS: ONGOING

To this day, there may be  
hundreds of plutonium warheads  
still belching deadly radiation.

THE 3/11 EVENT WAS THE START OF A SLOW-MOTION EXTINCTION LEVEL EVENT.
